Biobord - open innovation platform connecting bioeconomy developers in BSR

ConnectedByBiobord

ConnectedByBiobord is an extension stage project for 'Rural RDI Milieus in transition towards smart bioeconomy clusters and innovation ecosystems' - RD12CluB - project and a **Flagship project to EUSBSR PA Bioeconomy**. Project is funded by European Development funding programme **Interreg Baltic Sea Region** (PA-Capacity for Innovation). The goal of the RD12CluB project has been to support smart, sustainable, and inclusive growth of the bioeconomy in rural areas of the BSR. ConnectedByBiobord is building on the outputs of the RD12CluB: Joint Action Plans and the Biobord platform for transnational innovation co-operation.
